 I regret some finishing this tier of Towns that I had
 not run the two preceding E. & W. lines over again as a
 greater Var. — I should have done so at the time
 I run them, had I not supposed, running as I was
 so near at right angles with the true Mer. that the

work would finally close better on the Mer. as the West Boundary of the District. and further, it was my intention at that time (pursuant to my instructions as I supposed,) to run all my lines as near as practicable to the true Mer. an idea that I have long since abandoned. — and confined myself entirely to closing the old surveys
